

Hi, I'm Craig,
Founder of CSI Bathrooms.

Why I Started CSI Bathrooms:

My journey began at 16, working alongside my dad, Gary, as a wall and floor tiler. More than 18 years later, that same passion for learning, improving and doing things properly still drives everything we do at CSI Bathrooms.

Over the years, I expanded my skills through further training in plumbing and bathroom installation, with one goal in mind: creating beautiful bathrooms and wetrooms that homeowners can enjoy for years to come.

I know inviting tradespeople into your home can feel like a leap of faith. Many homeowners have experienced poor communication, missed deadlines or projects that simply didn't go to plan.
That's why we've built CSI Bathrooms differently.

Today, we're a growing team of skilled installers and trusted specialist trades, supported by proven systems, clear communication and high standards at every stage. Our aim is simple: to deliver an exceptional bathroom renovation experience that feels organised, stress-free and professionally managed from start to finish.

WHY CHOOSE CSI BATHROOMS?

- Award-winning customer satisfaction
- Fully project-managed installations
- Clear communication from start to finish
- High-end workmanship
- Hundreds of satisfied homeowners
